Testcase Management — Functional Testing Report — 2026-10-21

Covers the client-reported "expected field limited to 2000 chars" fix verification — the discovery half, before the dev's CSV Import fix landed. See TCM-Retest-2026-10-21.md for the same-day retest after the fix.

Test Case Execution

TC ID | Result
TC-TCM-275 | FAIL
TC-TCM-276 | FAIL
TC-TCM-277 | PASS

Summary: 3 executed — 1 Pass / 2 Fail / 0 Blocked / 0 Skipped

Bugs / Defects Found

Bug ID | Title | Severity | Status | Production Redmine Issue ID
BUG-TCM-079 | CSV Import still hard-rejects any step/expected-result content over 2000 characters, even though the step/expected columns were migrated to a 40000-char limit | High | Open (same day, later closed — see Retest report) | #124155

Notes / Findings

- Client reported the expected field in the steps table was limited to 2000 characters, blocking migration of existing Jira/Zephyr test cases (long expected-result text) into Redmine. Dev provided a fixed build on C:\crux-redmine with migration 20261021000000_increase_step_and_expected_column_length_in_steps.rb.
- Confirmed the DB/model/view layer fix works correctly: live DB schema shows steps.step/steps.expected as varchar(40000); a direct UI test case create with a 35,000-char expected result saved with zero truncation.
- However, CSV Import — the exact migration path the client's request is about — was never updated to match.
TestcaseImportController#step3 still hard-coded the old 2000-char ceiling independently of the column migration, silently excluding any row over 2000 chars from import (including the new 40,000-char limit itself).
Filed as BUG-TCM-079 (High) with full evidence (screenshots, new CSV test data 21_boundary_40000_vs_40001_chars.csv / 22_jira_zephyr_migration_long_expected.csv).
- Baseline CSV import regression (short-content, legacy format) re-confirmed clean (TC-TCM-277 PASS) — the defect
is isolated to the length check, not a wider import regression.
- Redmine Version: 6.x (Docker)
- Environment: Docker localhost:3015 (C:\crux-redmine), project test
- Test Date: 2026-10-21
