

Final Bug Report — Redmineflux DevOps Plugin

Plugin: redmineflux_devops v0.1.0

Redmine: 6.0.9

Environment: Local Docker (http://localhost:3008) + Forge

Report Date: 2026-05-25

Tester: Claude (AI QA via MCP Playwright)

150 TCs across Suite 01 + Suite 02 + Suite 03 | Pass rate (excl. SKIP/BLOCKED): 60.4%

CRITICAL (1)

BUG-RDV-008

CRITICAL

OPEN

REST API returns DevOps data from all projects regardless of user's project membership (IDOR)

Discovered in

TC-RDV-022

Environment

Forge only

Description

A user with API access retrieves DevOps data from projects they are not a member of. No project-scoped authorization at the data layer. Affects all REST API endpoints.

HIGH (17)

BUG-RDV-002

HIGH

OPEN

Webhook endpoint accepts payloads over 2 MB — no size limit enforced

Discovered in

TC-RDV-003

Environment

Forge + Local

Description

No payload size limit enforced. Oversized payloads accepted with HTTP 202. Risk of DoS via memory exhaustion.

BUG-RDV-003

HIGH

OPEN

SonarQube webhook token not configurable via Admin plugin settings UI

Discovered in

TC-RDV-009

Environment

Forge + Local

Description

SonarQube token field absent from plugin settings page. Blocks TC-RDV-073 and TC-RDV-074 (quality gate badge tests).

BUG-RDV-004

HIGH

OPEN

FOSSA provider cannot be added as repository connection — missing from Add Repository form

Discovered in

TC-RDV-009

Environment

Forge + Local

Description

FOSSA is not listed as a provider option in the Add Repository form. Repository connections for FOSSA cannot be created.

BUG-RDV-009

HIGH

OPEN

DORA metrics REST endpoint returns 404 — route not implemented

Discovered in

TC-RDV-023

Environment

Forge only

Description

DORA metrics route not implemented; endpoint returns 404 Not Found.

BUG-RDV-010**HIGH****OPEN**

DevOps activity events do not appear in Redmine activity stream — ActivityProvider not registered

Discovered in

TC-RDV-024

Environment

Forge + Local

Description

ActivityProvider not registered in plugin init. No DevOps events appear in the Redmine activity stream for any user role.

BUG-RDV-011**HIGH****OPEN**

Webhook event log accessible to users with only view_devops — manage_devops_settings not enforced

Discovered in

TC-RDV-040

Environment

Forge + Local

Description

Users with view_devops (but not manage_devops_settings) can access /projects/:id/devops_webhooks. The manage_devops_settings guard is not applied to this route.

BUG-RDV-013**HIGH****OPEN**

Five of ten documented REST API endpoints return HTTP 406 — JSON format not supported

Discovered in

TC-RDV-023

Environment

Local

Description

environments, incidents, vulnerabilities, releases, and alerts endpoints return 406 Not Acceptable when requested with .json format.

BUG-RDV-014**HIGH****OPEN**

PR reviewer names and approval status not displayed on PR card

Discovered in

TC-RDV-050

Environment

Local

Description

After pull_request_review webhook (202 accepted), reviewer name and approval/rejected status are not stored or displayed on the PR card in the issue DevOps panel.

BUG-RDV-016**HIGH****OPEN**

PR Review Dashboard shows all statuses (not just open) and sorts by updated date instead of age

Discovered in

TC-RDV-065

Environment

Local

Description

Dashboard shows merged, closed, draft, and open PRs instead of open-only. Sort order is Updated desc instead of age asc (oldest first).

BUG-RDV-017**HIGH****OPEN**

PR Review Dashboard and Commits page return HTTP 200 to users without view_devops permission

Discovered in

TC-RDV-067, TC-RDV-072

Environment

Local

Description

Non-members and users without view_devops permission receive HTTP 200 with full PR and commit data. Authorization guard not applied.

BUG-RDV-018**HIGH****OPEN**

Commit statistics route returns 404 — daily/weekly aggregation and top contributors not implemented

Discovered in TC-RDV-070, TC-RDV-071

Environment Local

Description /devops_commit_stats route returns 404. No daily/weekly chart, no top contributors list, no time window filter implemented.

BUG-RDV-019**HIGH****OPEN**

PR linked to multiple issues via "refs #N" only updates first referenced issue

Discovered in TC-RDV-079

Environment Local

Description PR title "Fixes #518 and refs #519" — only issue #518 gets the PR card. Issue #519 receives nothing. Secondary issue reference parsing not implemented.

BUG-RDV-022**HIGH****OPEN**

Multi-commit push webhook stores no commits — background job silently fails

Discovered in TC-RDV-089

Environment Local

Description Push webhook with 3 commits returns 202 but 0 commits are stored. Background job silent failure — same root cause as BUG-RDV-007.

BUG-RDV-023**HIGH****OPEN**

Build badge JS polling uses project identifier string in API call — returns 403, badge never auto-updates

Discovered in TC-RDV-095

Environment Local

Description data-project-id attribute contains string identifier "phoenix-platform" not numeric ID. JS polling calls /devops/builds.json?project_id=phoenix-platform → 403. Badge never auto-updates without manual page reload.

BUG-RDV-026**HIGH****OPEN**

JUnit ingestion endpoint returns 422 — missing rexml XML parser gem dependency

Discovered in TC-RDV-122

Environment Local

Description POST /devops/builds/3/test_results with valid JUnit XML returns HTTP 422: "XML parser dependency missing: cannot load such file -- rexml/document". Fix: add gem 'rexml' to plugin Gemfile. Blocks all JUnit-dependent features (flaky test detection, test result display).

BUG-RDV-027**HIGH****OPEN**

Build queue status widget missing — dashboards page shows placeholder only

Discovered in TC-RDV-115, TC-RDV-116

Environment Local

Description /projects/phoenix-platform/devops/dashboards shows "No custom dashboards yet." No built-in Build Queue widget as specified in rfd-077 / CICD-006. BuildQueueFetcher service not implemented.

BUG-RDV-029**HIGH****OPEN**

Pipeline stage breakdown not implemented — no stages section on build detail page

Discovered in TC-RDV-125, TC-RDV-144, TC-RDV-148

Environment Local

Description No "Pipeline Stages" section on any build detail page across GitHub Actions, Jenkins, and GitLab CI providers. BuildStageIngestor service not implemented.

MEDIUM (9)**BUG-RDV-006****MEDIUM****OPEN**

Three undocumented DevOps permissions present in Roles administration panel

Discovered in TC-RDV-007

Environment Forge + Local

Description 10 permissions visible in the Roles panel; spec defines 7. Three permissions have no documentation, unknown scope or purpose.

BUG-RDV-007**MEDIUM****OPEN**

Webhook background job fails with ActiveRecord::RecordInvalid after returning 202

Discovered in TC-RDV-015

Environment Forge + Local

Description Webhook returns 202 immediately but background job raises RecordInvalid and rolls back. Commits are never stored. Root cause of BUG-RDV-022. Blocks all commit-linked issue panel assertions.

BUG-RDV-012**MEDIUM****OPEN**

Commits REST API ignores the limit parameter — all records returned on page 1

Discovered in TC-RDV-021

Environment Local

Description ?limit=5 parameter ignored on the commits endpoint — all 25+ records returned on page 1 regardless of limit value.

BUG-RDV-015**MEDIUM****OPEN**

Auto-transition journal text format wrong and attributed to real user instead of system actor

Discovered in TC-RDV-055, TC-RDV-081

Environment Local

Description Journal text reads "[DevOps] Status changed automatically — PR merged" (spec: "Status changed by DevOps integration (PR #N merged)"). Author shown as "Redmine Admin" (spec: system/DevOps actor).

BUG-RDV-021**MEDIUM****OPEN**

Auto-transition rules UI missing per-rule configuration (Add Rule, Source Status, Trigger type)

Discovered in TC-RDV-088

Environment Local

Description Only global enable checkbox + single target status select. No Add Rule button, no Source Status selector, no Trigger type control per rule.

BUG-RDV-024	MEDIUM	OPEN	Build history date filter has no custom date range — only preset period dropdown
Discovered in	TC-RDV-100		
Environment	Local		
Description	Filter form has only "Last 7/30/90 days / All time" preset dropdown. No custom date_from / date_to date pickers as required by spec.		

BUG-RDV-028	MEDIUM	OPEN	Artifact download links section shows no artifacts for completed builds
Discovered in	TC-RDV-117		
Environment	Local		
Description	Build #513 (success) shows "No artifacts available for this build." Artifact metadata fetch from GitHub Actions API not implemented. TC-RDV-118 and TC-RDV-119 blocked as a result.		

BUG-RDV-030	MEDIUM	OPEN	Slack and Microsoft Teams notification channels absent from DevOps notification preferences
Discovered in	TC-RDV-128, TC-RDV-131		
Environment	Local		
Description	/my/devops_notifications shows only Email and In-app columns. Slack and Microsoft Teams channel configuration is not implemented in the notification preferences UI.		

BUG-RDV-031	MEDIUM	OPEN	Build run duration not stored or displayed — webhook run_duration_ms field silently ignored
Discovered in	TC-RDV-134, TC-RDV-150		
Environment	Local		
Description	Webhook payloads with run_duration_ms: 187000 result in build records showing "N/A" / "-" duration. Duration column in builds list and issue panel badge both show no duration text. Field silently ignored by background job.		

LOW (3)

BUG-RDV-001	LOW	OPEN	Webhook signature rejection returns 401 instead of 403
Discovered in	TC-RDV-002		
Environment	Forge + Local		
Description	Invalid webhook signature is rejected with HTTP 401 Unauthorized. Spec requires HTTP 403 Forbidden for signature validation failures.		

BUG-RDV-005	LOW	OPEN	Webhook endpoint returns HTTP 400 instead of HTTP 404 for unknown provider
Discovered in	TC-RDV-004		
Environment	Forge + Local		
Description	Unknown provider (e.g. fossa) returns 400 Bad Request. Spec requires 404 Not Found for unrecognised provider identifiers.		

BUG-RDV-020

LOW

OPEN

GitLab commit SHA links use /commit/ instead of /-/commit/ URL pattern

Discovered in

TC-RDV-082

Environment

Local

Description

GitLab commit links generated as https://gitlab.com/ns/repo/commit/sha — missing the /-/ path prefix required by current GitLab URL standards.

Test Execution Summary

Suite	PASS	FAIL	SKIP	BLOCKED	Total
Suite 01 — Foundation & Infrastructure (TC-001–040)	26	10	1	3	40
Suite 02 — SCM Integration (TC-041–090)	18	16	3	13	50
Suite 03 — CI/CD & Build Management (TC-091–150)	20	16	0	24	60
Grand Total	64	42	4	40	150

Pass rate (excluding SKIP/BLOCKED): **60.4%** (64 of 106 executable TCs)
