BUG-RDV-078

Medium

Notification matrix missing 7 required DevOps event types

Steps to Reproduce	1. Log in as any user. 2. Navigate to /my/devops_notifications. 3. Count and list the event type rows.
Expected Result	Matrix contains at minimum 10 event type rows including: deployment_success, deployment_failed, incident_created, incident_resolved, release_published, alert_fired, security_gate_blocked.
Actual Result	Only 7 rows present: Code review requested, Daily code review digest, Incident escalation, Build failed, Build recovered, Build succeeded, Pull request merged. Missing 7 required types.
Affected TCs	TC-RDV-501 (FAIL)
