

redmineflux_devops — Bug Report

Suite 13 — Permissions & Roles | 1 open bug | Redmine 6.0.9 | Generated 2026-05-28

Plugin: redmineflux_devops | Environment: Local Docker (http://localhost:3008) | Status: Open

BUG-RDV-079	Medium	Export Release Notes blocked for Developer and QA roles — should be accessible to all view_devops members
Steps to Reproduce	1. Log in as dev_user (Developer — has view_devops, NOT manage_releases). 2. GET /projects/phoenix-platform/devops_releases/5/export.md 3. GET /projects/phoenix-platform/devops_releases/5/export.html Repeat as qa_user.	
Expected Result	Both export endpoints return HTTP 200. Export is a read-only action accessible to all view_devops members.	
Actual Result	GET ../export.md → HTTP 403. GET ../export.html → HTTP 403. Both dev_user and qa_user blocked. Only manage_releases users (Manager, Admin) can export.	
Affected TCs	TC-RDV-545 (FAIL)
